

FT-GSMJR

Guardian JR.

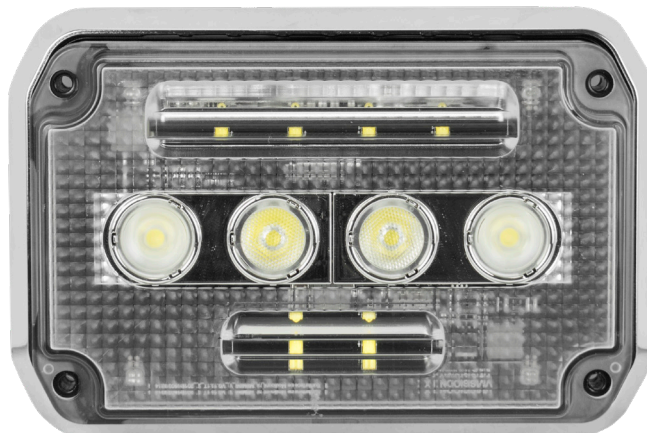

Surface Mount Scene Light

ABOUT THE GUARDIAN JR.

The Guardian Junior is a class leading scene light designed for the side of your apparatus. It is 3x brighter than any fixture of its size and uses an industry standard bolt pattern. These two key features make it the perfect scene light for retrofits and new installations alike.

Key Features:

- Industry Standard Bolt Pattern
- Multiple Output Options
- Hardware Never Contacts the Lens
